

Hello,

This document was created to help guide you through our LMS (learning management system).

To access the online lectures, you will need to go to www.sonosession.com

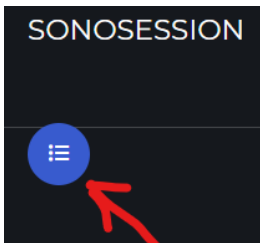

Login using the username and password you created (you can change your password anytime if you forget it)

Select **My Account** from the top right corner of the homepage

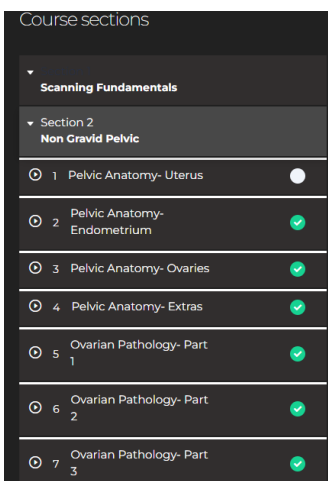

If you signed up for a live workshop you will see 2 Courses under the My Account tab. There will not be any online lectures under your workshop course. This is only holding your spot for your live scanning session.

The online lectures and videos will be found under **Introduction to OB GYN Ultrasound**. Once you click on this you will see a description page. Click on the blue tab that says **Start Learning**. (Please ignore the price, it is included in your Live Hands-on Workshop Fee)

Select this button that you will find on upper left corner.

Here you will see 8 sections. You can move through the material as you like. You can rewatch videos and/or skip sections. To track your progress, you can click the Complete tab at the bottom of each video. This will allow you to see completed videos in your outline. You must open and select complete all the videos as well as complete the assessments to unlock your CME Certificate.

You must make at least a 90% on the assessments to unlock your certificate. You can retake the tests up to 10 times.

Your certificate will be available to download and print as soon as you complete the above requirements. You have access to this course for a full year. I hope this makes sense to you. Please feel free to email or call me directly if you need help. julie@sonosession.com at 831.595.2111.
